The Trekker's Trek— The Via Alpina across Switzerland: Part I

Trip# 1828 18 August–2 September 2018

Approach to Grindelwald, Switzerland at sunset

Backpacker magazine selected Switzerland's Via Alpina as "[The World's Best Hike](#)" for 370 km of scenery, cheese, and chocolate. *"Your first view of the Eiger massif will spoil you for the rest of your hiking days. The Via Alpina could offer nothing else and still be world-class. The chocolate, historic villages, on-time trains, and luxe hut system are pure gravy."*

The Via Alpina consists of a network of five long-distance hiking trails across the alpine regions of Slovenia, Austria, Germany, Liechtenstein, Switzerland, Italy, France, and Monaco. Our trip focuses on the Swiss portion. It follows the [Via Alpina trail](#) which starts in Sargans in eastern Switzerland and then connects in the middle of the blue arrowed segment below with the [Swiss National Route #1](#) to finish in Montreux on Lake Geneva. Henceforth when the term Via Alpina (VA) is used, it refers strictly to our chosen Swiss route as indicated by the red and blue arrows below.

Via Alpina Trek Year I: red arrow Year II: blue arrow

The VA crosses fourteen of the most beautiful Alpine passes. Hikers experience a fascinating variety of culture, geology and topography on a journey across six Swiss cantons. There is no better way to get to know the many facets of Swiss Alpine culture. The route is lined with one of the world's most diverse variety of flora and fauna. Shifts, thrusts, depressions and rockfalls are evidence of an interesting geological structure. The scene changes from a pleasant family holiday resort to stylish villages. Peaceful oases of stillness and solitude alternate with flourishing tourist centres. Wide roads end in dizzying, breezy ridge trails. Breathtaking panoramas interchange with tiny wayside gems. There are many gastronomic treats in store as well. It generally takes 3–4 weeks to complete this trek.

To manage the itinerary within the typically available vacation time of two weeks, we plan to section hike the trail over two years, two weeks per year: in 2018 trek from Sargans to Interlaken (above map, red arrow), and in 2019 from Interlaken to Montreux (blue arrow). Participants in Part I will have priority for participation in Part II. Here is a [detailed map for Part I of the VA](#)

Klausen Pass

An excellent reference guide book for the VA is Kev Reynold's [Alpine Pass Route](#). You can learn more about hiking the Via Alpina in these [Backpacker](#) & [New Yorker](#) magazine articles. If you are really daring, you can watch a 2 ½ minute video resulting from the trip co-leader's traverse of the VA in 2010: [The VA from Altdorf to Adalboden](#) CAUTION - Watching this video may result in an uncontrollable desire to immediately apply for trip membership :)

Trip Itinerary

We will meet in Sargans, accessible on a direct train line from Zürich central station, follow the Green trail, stop along the way for day-hiking opportunities in Unterschächen and Engelberg, and finish fourteen days later in Interlaken via Grindelwald.

To ease our adjustment to Swiss time we will spend the first evening in Sargans. Aside from the travel days of arrival and departure, we will hike every day with a typical altitude gain of 850m and a distance covered of 16km. We will be outdoors eight hours per day of which six hours are hiking and the balance for lunch, taking pictures, & smelling the fresh air.

Surenen Pass

Lodging

We will spend every night in either hotels or mountain huts. Blankets and pillows will be provided. Participants must bring a sleeping bag liner (sleep sack) to use instead of sheets. Accommodations are typically in a bunk room with 4–12 people of mixed gender. Mattresses are either side-by-side or in two-level bunk beds. Alternatively, we may sometimes have two persons (same sex) per room sharing two adjacent mattresses in a single bed frame.

Daily Itinerary

All distance & elevation information are approximate based on representative maps. The leaders reserve the right to change the itinerary for reasons such as weather, trail conditions, availability of accommodations, group preference, etc.

A typical day will have us waking up at 6:30 and on the trail by 8:00. We may pass other huts along the way and indulge in a slice of apple strudel as a lunchtime snack. We aim to arrive at our destination by 16:30 each afternoon. Almost all huts & hotels have showers. The meals are hearty Swiss country cuisine. Vegetarian options are limited. All lodges serve beer or wine. Dinner is at 18:30 or 19:00. Most people are in bed by 21:00–22:00.

Participants

Profile

Rami, Steve, and group on France's GR5 trail

You should enjoy traveling and be comfortable traveling in areas which are unfamiliar to you. You should recognize that you may find yourself in closer quarters or be less comfortable than you are used to at home. You should make it a priority to help others on the trip and contribute to their having a great time. If you do that, we guarantee that you will have a great time.

This is a strenuous hike geared towards the outdoors adventurer. Since breakfast, dinner and lodging are provided we will be traveling light, with backpacks in the range of twenty-five pounds fully loaded.

You should have at least intermediate to advanced hiking skills. While no technical climbing is required, there are areas with narrow trails bordered by steep drop-offs: where appropriate there are steel cables for protection. We may use ladders bolted to the mountainside for short ascents of steep terrain.

Experience & Risks

Climbing high mountain passes is physically very demanding. Most of our travels will be between 1,500'–8,000'. Although these elevations should not be high enough for properly conditioned people to contract acute mountain sickness, the combination of physical exertion & slightly lower oxygen levels require that we pace ourselves and pay attention to proper nutrition and hydration.

People wishing to participate in this trip must have previous hiking and backpacking experience, at the intermediate level or higher. Several of the days are long and strenuous. You need to be prepared to commit yourself to keeping in shape between the time you sign up for the trip to the time you depart on it.

When you participate in this activity, you should be prepared both physically and mentally, and equipped with the appropriate gear. You should always be aware of the risks involved and conduct yourself accordingly. We are not responsible for your safety—you are.

Nonetheless, it may happen on any trip that a trip member is or becomes unable to participate in one or more of the planned activities. Leaders in their sole judgment have the right and obligation to refuse participation in any activity to any group member for reasons of group or individual safety. Illness, injury or lack of proper gear or fitness for a particular activity are examples of

Truebsee

some conditions that might result in a participant's being unable to perform one or more activity. Leaders may try to find a substitute activity for the trip member, but this may not always be possible.

Prior to your being accepted as a participant in this trip, you will be asked to discuss your capabilities and experience with us. Please do not be offended by our questions. Weather is likely to be temperate & sunny, although there is always a possibility of some precipitation. That said, mountain climate is unpredictable and can range from 30–80°F. Snow can fall in every month of the year.

Trip Price

The final trip price will be adjusted in accordance with the best final arrangements we can make and currency fluctuations. Any savings we achieve, as well as any cost increases, will be passed back to you. Our cost estimates are conservative, and so a refund is considerably more likely than a price increase.

You will not be accepted and your check will not be deposited until the leaders have determined by telephone conversation with you that you and the trip are a good match. Deposit checks from wait-listed applicants will not be cashed until a spot is available, the applicant is accepted onto the trip, & they confirmed their continued interest.

Participant Cancellation Policy

Cancellation will not be allowed to raise the cost to the other participants or to the leaders.

The minimum cancellation fee is \$200 once the trip has been declared a go. If actual costs (expenses already incurred on your behalf, and any unavoidable future expenses that will be incurred as a result of your registration & cancellation) are higher, they will be assessed instead, unless they can be applied toward another acceptable participant.

Trip Cancellation Policy

In the unlikely event that the trip is cancelled, everything you have paid to AMC for this trip will be refunded in full.

Participants are responsible for their own airline tickets & other external expenses. Most airlines no longer give refunds for cancellations; instead, they issue coupons for a future trip with an administrative charge and an expiration date. Trip cancellation insurance is advised—policy information will be supplied to all participants.

Packing List

Backpack

We cannot emphasize enough the attention you need to give for choosing the correct pack and pack weight.

- Size & weight (without water or food) matter. Aim for 32 liters & 5kg (11lb) for comfortable light hike that allows you to run up the mountain. Cannot fit everything in? Try 35 liters & 6kg (13lb), trading some comfort with a third change of clothes. You cannot hike without those extra equipment “just in case”, no matter how much your shoulders ache & feet suffer? Go all out with 38 liters & 7kg (15lb). But remember, “we *you told so*”. Do not bother coming on the trip with anything larger & heavier.
- [Fit matters](#): get the right fit for your torso. Ever wondered what all these straps are for? Stop by your REI or local outdoor store for proper fitting.
- [Packing matters](#): keep heavy items in the middle to lower part of the pack, close to your back. Light items go on the outer & top layers. But none of this matters, because your whole pack is very light, right?
